Introduction

Escambia County Public Schools are committed to increasing student achievement and school improvement. One of the goals of school improvement is to provide an environment which is orderly, drug-free, and which protects students' health, safety, and civil rights. To achieve this goal, a committee of parents, students, principals, deans, teachers, and other administrative officials have created a code of student conduct for Escambia County Public Schools.

The Code of Student Conduct is centered on the protection of students' individual rights according to the United States Constitution, the laws of Florida, the rules of the School Board of Escambia County and the State Board of Education.

Accompanying these rights are the students' responsibilities which are essential for a safe and orderly learning environment. Students are expected to follow this Code of Student Conduct to ensure personal and academic growth and a safe learning environment.

The Code of Student Conduct encourages self-discipline and responsible behavior. To achieve positive self-discipline, students must understand the rights and responsibilities in this book. Parents are expected to become familiar with these rules, to be supportive, and to offer guidance to assure the students' understanding and compliance.

Following the Code of Student Conduct will help assure a positive learning environment for all students. Students who do not follow the rules will have consequences which are explained in this document.

Those students who object to participation on the grounds of conscience shall have the right to abstain. This right to abstain shall be exercised and honored in a courteous manner.

E ... Parental Rights

Parents have the right to participate in their child's education and to be informed of issues pertaining to their child. Parents have the right to be notified any time there is a change in their child's services and monitoring and the school's ability to provide a safe, supportive learning environment. School officials cannot withhold information about a student from a parent unless a reasonably prudent person would believe that such disclosure would result in abuse, abandonment, or neglect. Section 1001.42, Florida Statutes. Written parental consent must be obtained for the use of any deviation from a child's legal name in school.

Parents or guardians have a right to raise concerns regarding a school's compliance with Florida's Parental Rights in Education, s. 1001.42 (8)(c), Fla. Stat.

The following is a summary of the concerns that may be raised under the law:

1. The required notice regarding a change in the student's services or monitoring related to the student's mental, emotional, or physical health or well-being and the school's ability to provide a safe and supportive learning environment for the student.
2. The requirement for School District personnel to encourage a student to discuss issues related to their well-being with their parent(s).

3. The prohibition against School District personnel prohibiting or discouraging parental notification of and involvement in critical decisions affecting a student's mental, emotional, or physical health or well-being.
4. The prohibition of classroom instruction by school personnel or third parties on sexual orientation or gender identity in pre-kindergarten and all elementary grades, or in other grades in a manner that is not age-appropriate or developmentally appropriate, in accordance with State standards.
5. The requirement that student support services training adhere to student services guidelines, standards, and frameworks established by the Florida Department of Education.
6. The requirement that, at the beginning of each school year, the District notify parents of each healthcare service offered at their child's school and of the option to withhold consent or decline any specific service.
7. The requirement that the District provide a copy of a well-being questionnaire or health screening form to the parent and obtain the permission of the parent before administering the questionnaire or health screening form to a student in kindergarten through grade 3.

Steps for Raising and Responding to a Parent Concern

1. Step One. In order to raise a concern about any of the issues listed above, the parent or guardian must first summarize the nature of the concern in writing specifically describing the factual issues and presenting it to the principal/designee. A school administrator will conduct an investigation into the complaint and respond to the parent with a proposed resolution within seven (7) days of receipt of the original notification.
2. Step Two. If a parent or guardian believes the concern is not resolved by the principal, they may then notify the Superintendent/designee in writing, again describing the nature of the concern and the reason the principal's proposed resolution failed to address the concern. Within 30 days after receipt of the notification, the District will either resolve the concern or provide a statement of the reasons for not resolving the concern.
3. Step Three. If a parent still feels their concern has not been resolved, they may request the Commissioner of Education to appoint a special magistrate to conduct an independent inquiry which will be decided by the State Board of Education. In the alternative, they may seek declaratory and injunctive relief in court. These options for further redress may be found in s. 1001.42 (8)(c)7.b., Florida Statutes.

Chapter 2: Escambia County Public Schools Student Responsible Use Guidelines for Technology

Escambia County Public Schools (ECPS) allows students to use many different digital and electronic tools. We will talk about these tools as "technology." The technology provided by ECPS allows you as a student to be able to gain and share more knowledge. Access to technology comes with responsibility and some possibility of danger if used incorrectly. Following the guidelines below will help protect you, others at your school, and ECPS.

A. Mandatory Review

If something is mandatory it means it's required or must happen. You must read this and the *Student Code of Conduct*. Adults at your school are assigned to help you understand how to use technology safely. It is your responsibility to listen to them and follow all rules and directions to keep you and other students safe. The principal or designee may determine what devices are allowed on campus and will contact parents, if necessary.

- All students must use the ECPS provided filtered wireless network. This is true if you are using technology from the school or technology from home.
- Students must follow all ECPS and school campus rules and act with honor when online or using any technology.
- Students are expected to follow all laws when on an electronic device or online.
- The internet (getting online) is for educational/instructional purposes and students must always follow all directions given by the adults in charge of keeping them safe at school and online.
- Students will not be required to have their own electronic devices and their grade will not be harmed if they do not have personal electronic devices to use. The school will provide an electronic device or an alternative assignment if students do not have their own assigned electronic device.

- If students bring personal electronic devices to school:
 1. All school rules apply.
 2. Students are responsible if a device is lost, stolen, loaned, or damaged and only a limited amount of time and resources will be spent trying to find any lost or stolen devices.
 3. Students are not allowed to trade or sell their personal devices to anyone while on school/ECPS property, including bus or other school transportation.
 4. Students are responsible for everything related to their personal electronic devices. ECPS staff will not store, charge, diagnose or fix any student personal electronic device.
- Students who see or hear anything inappropriate or harmful must tell a responsible adult at school immediately. Students should NOT tell, send, show, or share anything that may be dangerous, harmful, or inappropriate with other students. Students should know that anything they do online or on an ECPS device is not considered private.
- Students must never share their password with other people. Students must also never use another person's online account.
- Electronic devices may only be used during class for educational purposes and must have the permission of the classroom teacher.
- Email and other tools to talk to other people and students, such as chat, are only allowed for school and educational activities.
- All students will receive an email account.
 1. Internet access to email addresses not issued by the school is not allowed.
- When sending emails to more than one person, students should use bcc to keep other people's email addresses private. You may need to ask an adult for help on how to do this.

B Inappropriate Use

- You are not allowed to use your cell phone during class unless your teacher tells you to except when used solely for educational purposes as directed by your teacher, or when used as a medical alert device registered with the school clinic. If you do not follow this rule, your teacher may take your phone away.
- Students are not allowed to access social media platforms at school except when directed to so by a teacher solely for educational purposes. This means you cannot access social media such as Tik Tok, Snapchat or other social media AT ANY TIME on school grounds, including before and after school, during lunch, between classes, or at extracurricular activities. You also cannot use AirDrop.
- A student may not use a wireless communications device during instructional time, except when used solely for educational purposes as directed by his or her teacher, or when used as a medical alert device registered with the school clinic.
- A teacher may withhold a student's wireless communications device during instructional time.
- Some inappropriate uses have already been mentioned such as sharing passwords or using another person's account. The following list is not meant to cover every possible violation of the rules.
- Students may not:
 1. Change computer settings or anything inside or outside the device.
 2. Share personal information that is private such as home addresses and birthdays.
 3. Use an ECPS electronic device or internet to make money.

4. Harm, hurt, or destroy any ECPS property or system such as the internet or a device.
5. Share or steal pictures, videos, books, text or other materials that belong to someone else. If you use or share something from someone else, you should always check with an adult to make sure you are giving credit to the person to whom it belongs.
6. Pretend to be someone else online or on any ECPS device.
7. Access or try to access any ECPS system, network, or information storage system.
8. Delete, look at, copy, or change files and/or data that belong to someone else without their permission.
9. Take or share pictures, videos, or voice recordings of others without their permission.
10. Use bad language or make rude or mean comments to or about others.
11. Forge or write fake messages or read or change other people's messages.
12. Send an email to a large number of people or copy and forward junk mail or chain mail.

C. Consequences of Not Following this Agreement

Any student who knowingly breaks any of the rules or guidelines found within this document, also known as the Responsible Use Guidelines, will be subject to temporary or permanent loss of access and/or privileges to ECPS and school technology/devices/network and may be disciplined as outlined in the *Student Code of Conduct*. Students may also face criminal charges if they use a wireless device to commit a criminal act.

D. Warning

ECPS works very hard and does their best to protect students from illegal, inaccurate, or inappropriate content while they are on the ECPS/school network/internet. However, it is not possible for filters to be perfect. There is a risk that students may find or see material that is not educational and/or appropriate for school and students. Students should report inappropriate content to a responsible adult.

E. Disclaimer

ECPS's network internet system is provided "as is." This means that sometimes it may not work or be available to do what a student wants or needs to do. ECPS does not and cannot say for sure that errors will not happen or that the system will always work as intended.

The opinions and thoughts that other people say in ECPS's system and internet connection are not those of ECPS.

ECPS will cooperate with any law enforcement personnel in any investigation that has to do with someone misusing ECPS's electronic or digital tools and internet connection.

Chapter 3: Attendance and Homework

A. Attendance: Florida law requires that school age students attend school. Students should attend school every day and remain all day.

Attendance is defined as being present from the first bell to the dismissal bell.

Students may need to miss school due to illness. Students with excused or unexcused absences, or suspensions will be allowed to make up all missed work if it is requested by the student or parent/guardian either during the absence or on the first day the student returns to school. Partial credit may be given for work assigned during a student's unexcused absence or suspension.

A note explaining a student's absence must be submitted within three (3) days of returning to school. The note can be handwritten, sent by email, or uploaded through the parent portal in FOCUS.

Teaching and learning occurs from bell to bell. When a student arrives late to school, it negatively impacts the opportunity for student success.

Students will receive an excused absence for an absence related to the observance of a religious holiday. Students will be allowed to make up any work missed as the result of the absence.

Students attending school out of their attendance zone must be on time and maintain good attendance and behavior in order to remain at their school of choice.

B. Homework: Teachers are responsible for coordinating assignments to students each day.

1. Homework should be assigned for the purpose of extending, supporting, and strengthening the work being done in the classrooms or for the purpose of enrichment.

Chapter 4: Campus Arrival/Departure

The principal of each school will designate a specific area for students who are waiting for school to begin or who are waiting to be picked up at the end of the student day. The student must remain in the assigned area and follow all school rules.

Students must use crosswalks and follow directions of the adults in charge at all times. Students may cross the street when instructed to do so. The District's supervisory responsibility is limited to times when students are on the school campus. 1003.31, F.S.

Chapter 5:: Transportation Services

Students are eligible for transportation if they are legally enrolled in the school district's public schools and live greater than or equal to one (1) mile from their zoned school if they are elementary school students

A. School Bus Student Expectations

1. Students will behave and respect private property while at the bus stop. They will be at their assigned bus stop five (5) minutes prior to the scheduled bus arrival time. They will not chase the bus. Parents are responsible for supervision of their children while at the bus stop. The school is NOT responsible for the supervision of bus stops.
2. Students will always follow the directions of the school bus driver and/or assistant.
3. Students will show respect for the bus driver and assistant, other students, and other adults. Students will not cause damage to any part of the bus.
4. Students will not annoy or bother others, engage in horseplay or rough play.
5. Students will not use profanity or make offensive gestures.
6. Students will sit in their assigned seats and remain seated with their seat belts fastened. They will keep their hands, feet, and all personal belongings away from other students. They will not throw items on the bus or out the bus windows.
7. Students will talk quietly and will not distract the bus driver.
8. Students will remain silent at railroad crossings.
9. Students will keep the aisle and steps clear at all times.

10. Students may use electronic devices on the bus with the bus driver's permission. Students must use earbuds/headphones or the device must be placed on silent or vibrate while on the bus. Electronic devices may not be used for recording. Florida Statutes 934.03 prohibits recording conversations without consent of the other person.
11. Students will not use sprays of any kind on the bus.
12. Students must follow all school rules while on the bus.
13. Students will wait until the bus comes to a complete stop before getting on or off the bus. They will enter and leave the bus in a single file line. Students crossing the road will do so in FRONT of the bus once the bus driver tells them it is safe.
14. Students will leave the bus only with the permission of the bus driver at their assigned bus stop.

B. School Bus Discipline

1. Riding the bus is a privilege. Students can be disciplined for behaviors on the bus for both minor and major behaviors.
2. A serious infraction makes it unsafe for others who are riding the bus. Serious infractions can result in suspension or permanent removal from riding the bus.
3. Any behavior on the bus that causes a disruption can result in suspension or permanent removal from the bus, or a referral for criminal prosecution.

Chapter 6: Dress Code

All students have a right to an orderly learning environment that is free of unnecessary distraction. A dress code helps students focus on their schoolwork, not their clothes. Students show respect for themselves, their school, and other students in the way they dress. It is the responsibility of all students to dress in a way that does not disrupt school.

A. Student Dress and Grooming Regulations

Students should dress in a way that is safe and does not disrupt learning. They should come to school clean and neat.

1. Shoes shall be worn and securely fastened to the foot. Tennis shoes/athletic shoes are required for PE and recess.
2. Clothing should cover the stomach and chest area. Undergarments must not be seen. Shorts, skirts, and dresses must be mid thigh or longer. All pants/shorts should be fastened at the waist. When wearing leggings, shirts/tops must be mid thigh or longer.
3. Head coverings will not be worn in the building unless required for religious or health-related reasons.
4. Clothes and jewelry should not show or suggest inappropriate words or pictures, or cause violence or disruption in school.

The following exceptions to the dress code shall be allowed when:

1. A student wears a costume or special clothing for a school play or other event.
2. A student wears clothing that reflects his/her religious belief.

B. Discipline for Infractions

Students are expected to follow the student dress code. Clothes that expose underwear or body parts in an indecent or vulgar manner or which disrupt the learning environment are prohibited. Students who do not follow the dress code could have:

1. A verbal Warning and call to parent/guardian
2. No participation in any extracurricular activity for a period of time not to exceed 5 days.
3. A conference with the principal and parent/guardian

If there is a third or subsequent referral, the student shall receive an in-school suspension and will be ineligible to participate in any extracurricular activity for a period not to exceed 30 days. The school principal shall call the student's parent or guardian and send the parent or guardian a written letter regarding the student's in-school suspension and ineligibility to participate in extracurricular activities.

C. School Uniforms

If the school has a uniform policy, students will wear solid colored khaki, navy or black pants, skirts, shorts, leggings, or jumpers and a solid white, red, or navy blue collared shirt. Sweat shirts or solid sweaters of appropriate uniform colors may be worn over the uniform shirt.

Chapter 7: Student Conduct

All students attending a public school are under the supervision of the principal or designee while they are on the bus, attending school, on school premises, and at any school-sponsored events.

A. Safe Harbor

If a student who is in possession of an item of contraband (such as a pocket knife, drugs, etc.) voluntarily surrenders the item as soon as he/she realizes that it is in his/her possession to a responsible staff member, then the student may be eligible for mitigation, in whole or part, of the penalty for possessing the item as appropriate under the circumstances. To qualify for this provision, such surrender must occur prior to the beginning of any investigation or search that might uncover the item.

B. Zero Tolerance Policy for School-Related Violent Crimes and for the Gun-Free School Act

To comply with the State Board of Education Rule for Zero Tolerance for school-related violent crimes and for the Gun-Free School Act, students must understand that certain criminal acts, violent acts and disruptive behaviors occurring on school property, on the bus or during school-sponsored activities must be reported to local law enforcement.

These acts include but are not limited to:

- Aggravated battery
- Battery on a teacher or other school personnel
- Arson
- Possession, use or sale of any firearm, razor blade, box cutter, knife or explosive device
- Willful property damage

- Bomb threats
- Conspiring or inciting a riot
- Trespassing on school property
- Possession or sale of illegal drugs or alcohol

These acts pose a serious threat to school safety, i.e.—acts which directly or indirectly pose a significant risk of serious injury.

The School District's definition of weapons is broader than the definition for weapons listed in Chapter 790 Florida Statutes. No student may possess any firearm, weapon, electric weapon or device, destructive device, or any other weapon as defined in section 790.001(13), Fla. Stat., including razor or box cutter, at any meeting of the public-school district; any athletic event; any school administration building; any school facility, and/or school sponsored event, except as authorized in support of school-sanctioned activities.

Any student who brings a firearm to school, on the bus, or to any school-sponsored activity will be expelled, with or without continuing educational services, from their regular school for the remainder of the current school year and all of the following year and referred for mental health services, and reported to the juvenile justice system. The same consequences will apply to any student who makes a threat or false report involving the school or school personnel's property, school transportation, or school-sponsored activity.

C. Simulating a Firearm

A student may be subject to disciplinary action if, while playing, he/she simulates a firearm or weapon and substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences will be decided by the severity of the infraction.

The nature of the offense and/or the student's past disciplinary record may be considered in disciplinary action under the progressive disciplinary policy.

D Personal Property of Students

Schools are not responsible for loss, theft, or destruction of students' personal items. Students should not bring items of value to school. Personal property not used in class as directed by the teacher should remain stored. No recording devices are allowed at any time. Florida Statutes 934.03 prohibits recording conversations without consent of the other person. The principal or designee may determine what devices are allowed on campus and will contact parents, if necessary.

E Gang Activity

The District does not allow gang activity as defined by Florida Law. Gang activity includes gang-affiliated signs, symbols, and dress. It is the policy of the District that all students and employees have an educational setting that is safe, secure, and free from harassment and bullying of any kind. The District will not tolerate unlawful harassment of any type. Conduct that constitutes bullying, as defined herein, is prohibited. Ch. 874, F.S.

F. Search of Electronic Devices or Personal Property

Students have the right to bring approved personal property to school.

The principal/designee can take a student's electronic communication device and search its contents without prior parent/guardian notification when a reasonable suspicion exists that the student violated the District's Student Responsible Use Guidelines for Technology.

The search of a student may be conducted without prior parent/guardian notification when reasonable suspicion exists that the student has an unapproved or illegal item.

Any search of a student's personal belongings, including a purse, backpack, or bookbag, must be conducted discreetly to maintain the privacy of the student's personal items within such belongings. Personal items that are not prohibited on school grounds must be immediately returned to the student's personal belongings.

Chapter 8: Bullying, Harassment and Discrimination

It is the responsibility of all students and adults in the school community to be aware of incidents of bullying, harassment, and discrimination so that the school and learning environment are safe.

Any person who has knowledge of bullying should report the bullying either through the on-line *Report School Violence* link located on the District's web site home page at www.escambiaschools.org or to any adult.

A. Bullying and Harassment

Bullying is unwanted and repeated written, verbal or physical behavior by an adult or student that causes discomfort or humiliation and interferes with a student's school performance. Behaviors include, but are not limited to the following:

1. Teasing
2. Social exclusion
3. Threat
4. Offensive gestures
5. Intimidation
6. Insults
7. Physical violence
8. Theft
9. Sexual, religious, or racial harassment
10. Public or private humiliation
11. Destruction of property

Harassment means any threatening, insulting words or gestures, use of data or computer software, or written, verbal or physical conduct directed against a student or school employee that:

1. Places a student or school employee in reasonable fear of harm to his or her person or damage to his or her property.
2. Has the effect of substantially interfering with a student's educational performance, opportunities, or benefits.
3. Has the effect of disrupting school.

Bullying and harassment also encompasses:

1. Retaliation against a person for reporting bullying or harassment. Reporting an act of bullying or harassment that is not true is considered retaliation.
2. Bullying or harassing an individual or group on the basis of the victim's real or perceived racial/ethnic origins, gender, gender identity/expression, sexual orientation, religion, or disability by causing emotional or physical harm.

Harassing School Personnel

Students will not harass school personnel at school or at home. Harassment can include but are not limited to the following:

- Inappropriate language
- False accusations (verbal or written)
- Destruction or damage to personal property

Students who harass school personnel may be suspended, expelled, placed in an alternative school, and/or face criminal charges.

Cyber-bullying

"Cyber-bullying" means bullying through the use of technology or any electronic communication, which includes, but is not limited to, any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including, but not limited to, electronic mail, Internet communications, instant messages, or facsimile communications. Cyber-bullying includes the creation of a webpage or weblog in which the creator assumes the identity of another person, or the knowing impersonation of another person as the author of posted content or messages, if the creation or impersonation creates any of the conditions enumerated in the definition of bullying. Cyber-bullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons, if the distribution or posting creates any of the conditions enumerated in the definition of bullying. 1006.147, F.S

B. Sexual Harassment

Sexual harassment is a form of discrimination. Sexual harassment of students by employees, school volunteers, or other students is not allowed. Any student who thinks that he/she is a victim of sexual harassment should tell an adult at school, as well as a parent/guardian.

Behaviors considered to be sexual harassment include the following:

1. Spreading sexual rumors
2. Making unwanted sexual comments (whether intended to be serious or humorous)
3. Pressuring for sexual activity
4. Making any unwanted physical contact of a sexual nature
5. Making any unwanted, hostile, intimidating, or sexually offensive telephone calls, e-mails, text messages, pictures, video, audio, social media, or writing offensive letters
6. Creating a hostile, offensive, or intimidating environment based on or related to gender
7. Requesting sexual favors

Anyone who commits sexual harassment will face disciplinary action.

C. Sexting

Sexting is a crime. It is when a student uses any computer or electronic communication device to send, receive, or possess any image or video that shows nudity or sexual content.

In order to avoid consequences, a student who unknowingly receives any image or video that shows nudity or sexual content must immediately report the image or video to an adult at school, parent/guardian, or law enforcement.

D. Discrimination

Discrimination is behavior that prevents a person from participating in any school activity because of race, color, religion, gender, origin, disability, sexual orientation, language spoken, homelessness or any other reason that seems unfair. If a student believes he/she is a victim of discrimination, the student should tell an adult at school.

Chapter 9: Safe Schools

School rules must be followed at all school sponsored events, which includes after school activities. Disturbances may result in a discipline referral.

Any student on school property (including school bus) outside of school hours, or during a suspension is trespassing. Trespassing may result in a discipline referral.

Students may be interviewed in school by School Resource Officers if the student is considered to be a suspect, or if a witness or victim becomes a suspect. An attempt will be made to contact a parent/guardian. Students suspected of a crime are under no obligation to speak with law enforcement until they have had a chance to consult with a parent or guardian. If appropriate, school personnel may be present during the interview. In matters of urgent school or personal safety, School Resource Officers may require immediate access to students before parents are notified. In these cases, parents will be contacted as soon as possible.

If any officer wishes to question a student at school, the principal/designee will be present during the interview if appropriate. An attempt will be made by the school to contact a parent/guardian (unless directed otherwise) prior to the interview of a student. Attempts to notify parents will be documented.

Local law enforcement agencies and private security companies provide armed security to keep students safe. Students are encouraged to prevent or report a crime by calling CRIME STOPPERS @ 433-STOP or using the P3 app on their Chromebook.

Chapter 10: Disciplinary Actions and Procedures

Students have a right to attend school in a safe environment that treats them fairly in the discipline process. There are consequences for infractions, whether they are minor or major incidents.

A. Students' Rights/Due Process

All students have a right to be treated fairly.

- Minor infractions will be handled by the classroom teacher.
- Repeated or serious infractions can result in a discipline referral and will be handled by the administration. Parents will be notified when students are seen in the office by administration for discipline reasons.

When a student receives a discipline referral:

- The student will be told why he/she has the referral.
- The student will be allowed to tell what happened.
- The infraction will be explained to the student.
- The administrator will consider all evidence and the Discipline Intervention Matrix to determine the consequence.

If a student receives more than ten (10) days suspension, he/she has a right to Due Process including:

- Notice of charges
- Opportunity to be heard
- Right to consult their own attorney, if desired

School personnel can not provide legal advice

B. Students with Disabilities

Disciplinary actions will follow applicable laws, school board policies and provisions of the Individual Education Plan for students eligible under the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act of 1973.

C. Severe Interventions and Consequences

We strive to keep students in their zoned school. In order to maintain a safe environment for everyone, some students may require more serious consequences, which may result in removal to a different setting.

1. In School Suspension:

In-school suspension is the temporary removal of a student from class to another location in the school under the supervision of school personnel.

2. Out of School Suspension:

Out-of-school suspension is the temporary removal of a student from school including all school-sponsored activities, except as authorized by the principal/designee.

Students are allowed to make up work they miss during an out of school suspension. They will have the same number of days as the suspension to make up the work.

3. Disciplinary Reassignment:

Disciplinary reassignment is the removal of the student from the current school to an alternative setting. Continued educational services are provided.

4. Expulsion:

Expulsion means the student loses the right and obligation to attend public school for a period of time no greater than the remainder of the term or school year and one (1) additional year.

Continued educational services may or may not be provided at the discretion of the Superintendent.

D. Minimizing Victimization of Students and Staff

In a disciplinary action, there is a rebuttable presumption that the actions of a student who intervened, using only the amount of force necessary, to stop a violent act against a student, staff, or volunteer were necessary to restore or maintain the safety of others.

Chapter 11: Health Services

The mission of school health services is to enhance learning by promoting health and wellness for students. Healthy children learn better. School nurses enable children with chronic health conditions to attend school and provide a safety net for all students.

School health services may not be provided by a school nurse or any unlicensed assistive personnel working for a school nurse without written parental consent. 1014.06(1) F.S. Parents may give consent for any portion of school health services. If parental consent is given, such consent will remain valid until it is retracted in writing.

A. Medication Policy

- While in school or under the authority of District personnel, medications must be kept secure in the school clinic under lock and key when not in use. The following medications can be carried and self-administered by the student when authorized by their medical provider and parent/guardian:
 - Metered dose inhalers
 - Epinephrine auto-injector
 - Pancreatic enzyme
 - Diabetic supplies and equipment
- Students may possess and self-administer medication that is regulated by the United States Food and Drug Administration for over-the-counter used to treat headaches while at school and during school activities. The parent/guardian is responsible for teaching the student when and how much medication to self-administer. The medication should be in its original packaging and in a small quantity. The student may not share this medication with others.

- Except as provided above, students shall not possess, dispense or share prescription or nonprescription medication. For student safety, it is required that the parent/guardian or responsible adult deliver medication to or from the school's clinic. Discontinued medications must be picked up within one (1) week after the medication is discontinued and at the end of the school year. Unclaimed medications will be destroyed.

Elementary

F. Family Educational Rights and Privacy Act (FERPA) Notice

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the accuracy and privacy of students' education records.

FERPA, sections 1002.22 and 1002.221, and School Board Policy 6Gx17-7.05 (Students: Records and Reports) afford parents, guardians or eligible students (students over 18 years of age or attending a postsecondary institution) certain rights with respect to the student's education records maintained by ECSD. These rights are::

1. The right to inspect and review a student's education records within 30 days of the day ECSD receives a request for access. Parents or eligible students should submit to the school principal a written request that identifies the record(s) they wish to inspect. The principal will arrange for access and notify the parent or eligible student of the time and place where the records may be inspected. When the education records contain information about more than one student, a parent may review the information related only to his or her child. E-mails not maintained in a student's file folders kept by the schools or ECSD departments are not education records.

2. The right to request the amendment of a student's education records.

or eligible students may ask ECSD to amend a record they believe is inaccurate, misleading, or in violation of the student's privacy rights. They should write the school principal, clearly identify the part of the record they want changed, and specify the reasons for the

request. If ECSD decides not to amend the record as requested, ECSD will notify the parent or eligible student of the decision and advise them of their right to a hearing within a reasonable period of time regarding the request for amendment. Additional information regarding the hearing procedures will be provided when the parent or eligible student is notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without written consent. FERPA permits disclosure without written consent in many situations, including:

(a) to school officials with a legitimate educational interest. A "School Official" is a person employed by ECSD as an administrator, supervisor, instructor, or support staff member (including health and medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom ECSD has contracted to perform a special function that would normally be performed by ECSD personnel (such as an attorney, auditor, medical consultant or therapist); a clerical or paraprofessional staff member assisting another school official in performing his or her professional duties. A "Legitimate educational interest" exists when a school official needs to review an educational record in order to fulfill his or her professional responsibility;

- (b) to contracted outside agencies and organizations, whose personnel perform their duties in a "school official" role and who are prohibited from re-disclosing personally identifiable information from education records, except as required or permitted by law;
- (c) to school officials of other institutions for the purposes of student transfer or student enrollment. School officials may disclose any and all education records, including disciplinary records and records that were created as a result of a student receiving special education services under Part B of the Individuals with Disabilities Education Act, to another school or postsecondary institution at which the student seeks or intends to enroll;
- (d) to authorized federal, state and local officials, including educational authorities, and for audits or evaluations of federal and state supported programs;
- (e) to comply with judicial orders or lawfully issued subpoenas; the parent/guardian/majority age student will be notified in advance of ECSD's intent to comply in ten (10) days so the parent or majority age student may seek protective action, except where the law prohibits or does not require said notification;
- (f) to appropriate parties in connection with a health or safety emergency; and,
- (g) to an agency caseworker or representative of a state or local child welfare agency, or tribal organization, when the agency is legally responsible for the care and protection of the student.

Additional requirements and conditions may apply to non-consensual disclosures.

Designation of Directory Information:

"Directory Information" is personally identifiable information that would not generally be considered harmful or an invasion of privacy if disclosed. Pursuant to the FERPA, ECSD may disclose - in its discretion - directory information of a student in any grade level, if the parent or student age 18 or over did not "opt out" of the disclosure. ECSD designates the following as "directory information": student's name; residential address; telephone number(s), photograph; degrees, honors, and awards; the most recent educational agency or institution attended; major field of study; dates of attendance; grade level; participation in officially-recognized activities and sports. For student athletes, student ID number, cumulative GPA, gender, race, and date of 9th grade enrollment may be shared with the Florida High School Athletic Association for the sole purpose of certifying and managing athletic eligibility. Student ID Number may be shared with yearbook and photographic vendors for the sole purpose of accurately linking students to their photographs.

Purposes of Disclosure of Directory Information:

ECSD reserves the right to release Directory Information only:

- a) to colleges, universities or other institutes of higher education in which the student is enrolled, may seek enrollment or may be recruited;
- b) for athletic events, school publications, instructional materials and other school communication tools (including, but not limited to, yearbooks, athletic programs, graduation programs, recruitment brochures, theatrical programs, school and ECSD websites, social media, and postings and displays throughout the school facility);
